OUR ACCREDITATION & PARTNERS

CSP

ANSI National Accreditation Board

THINK. LEARN. REPEAT

Certified Safety Professional – **CSP**

CSP professionals work in private industry, government, and military sectors across diverse industries such as petroleum, manufacturing, construction, healthcare, and insurance. They manage safety management systems, occupational health and ergonomics, emergency preparedness, fire prevention, security, and environmental programs, often overseeing the safety, health, and well-being of 1,000+ employees. Their role spans planning, implementation, and continuous improvement of comprehensive safety programs.

Accreditation & Recognition

Headquartered in Indianapolis, Indiana, the Board of Certified Safety Professionals (BCSP) is a not-for-profit leader in accredited credentialing for safety, health, and environmental (SH&E) professionals. Since 1969, over 100,000 credentials have been earned by practitioners who meet BCSP's rigorous competency standards. All BCSP certifications are ANSI-accredited (ISO/IEC 17024), ensuring globally recognized, high-quality standards in professional safety practice. BCSP also holds special consultative status with the United Nations Economic and Social Council (ECOSOC) since 2014, reflecting its commitment to global safety and sustainability.
